

Join Our Team!! Volunteers make the Panhandle Pathway possible!

While we have received a few small grants to support trail building and maintenance, these funds generally are spent for equipment, supplies and for specialized services such as preparing site development plans. The physical efforts to build and improve trails are done almost entirely by our volunteers.

That's why we count on support like yours to ensure the sustainability of the path. Become a Panhandle Pathway Friend! Join Friends of the Panhandle Pathway.

Becoming a Friend of the Pathway is easy and it's vital to the success of the trail!

Membership fee for one year is \$20. Other donations welcome.
